Recently, the Iowa Board of Medicine took the following action:

**Clayton G. Parks, M.D.**, a 26-year-old physician entered into a Consent Agreement with the Board on May 21, 2015. On March 25, 2015, Dr. Parks submitted an application for an Iowa resident physician license to participate in a residency training program in Iowa City, Iowa. During the licensure review process the Board received information which indicates that the Illinois Department of Financial and Professional Regulation (Illinois Board) indefinitely suspended Dr. Parks' Illinois pharmacy technician license on March 3, 2011. The Illinois Board determined that Dr. Parks diverted controlled substances from an employer for his own use while licensed as a pharmacy technician in Illinois. Dr. Parks completed residential substance abuse treatment in May 2010 and reports that he has been in successful recovery. Under the terms of the May 21, 2015, Consent Agreement, the Board granted Dr. Parks an Iowa resident physician license and issued him a Citation and Warning for being disciplined by the Illinois Board. The Board also referred him to the Iowa Physician Health Program (IPHP) for substance abuse assessment and he agreed to fully comply with all requirements established by the IPHP.

**When appropriate, disciplinary actions are reported to the National Practitioner Data Bank, an electronic repository administered by the U.S. Health Resources and Services Administration to track adverse license actions.**
